Choose where to put your money

You can put your money in an investment and/or cash option. Future contributions and withdrawals will be allocated to help bring your account to your target allocation of cash and investment balances.

Please read the Maryland ABLE Program Disclosure Booklet for important information about the cash and investment options before making a decision.

If you decide to invest, you have to allocate at least 10% of your money to the investment.

With an investment allocation

- This portion of your money is usually set aside for longer term investment.
- There’s the risk of losing money, even your contributions, but you may also gain money over time.
- Each option has varying degree of risk, going up and down in value depending on the market.
- It can take up to 5 – 7 business days to receive money once you start a withdrawal.
- Learn about the three portfolio options, ABLE Conservative, ABLE Moderate, and ABLE Aggressive in the Program Disclosure Booklet before you pick one in the next step.

With a cash allocation

- This portion of your money is usually set aside for short term saving or on-going spending needs.
- There’s low risk, but minimal or no interest.
- The account is FDIC insured up to the allowable amount.
- It can take up to 3 – 5 business days to receive money once you start a withdrawal.

Still undecided about the cash and/or investment allocation?
Check out the question: “How transfers work?” in the FAQs section on www.MarylandABLE.org for more information.

The investment information on this page has been provided by Marquette Associates, the investment advisor for the Maryland ABLE program.
Select an investment option

Skip this step if you chose to put all of your money in the cash allocation.

There are three investment options to pick from. There are risks involved in investing, your decision should be based on your goals and timeline for this ABLE account. The rest is up to the market's performance.

For an in-depth look at each of the investment options, please refer to the Program Disclosure Booklet.

How do you want to invest? (Please select one)

- **ABLE Moderate**
  This option seeks to provide a combination of growth and current income by investing in a portfolio of mutual funds that consists of 50% global public stocks and 50% bonds. Overall, there's a medium level of risk for a pursuit of investment return, designed for a medium or uncertain time horizon.

- **ABLE Aggressive**
